PHILOSOPHY

feature wall and ceiling panels

Design is a search for a better future and an improved present.

In today's world we all have individual needs. Everyone craves designs that are made for them for the ideal sense of comfort. In the modern world time is valuable therefore it should be flexible. Spaces need to be able to assist the transformed daily routines. In the name of getting the most out of the time we spare for ourselves we are now granted the option of high-quality entertainment choices that are not limited to content, place or time. Options such as home-theaters, high-quality audio and recording systems, vinyl records, improved conventional equipment, streaming platforms, video games, virtual reality and many expanded possibilities are now available for those with sophisticated tastes.

As such technologies develop so should interiors; a need for spaces that are designed for audio-visual requirements has emerged, meaning that such a space should serve both aesthetic and technical issues with an end-result that is visually and acoustically satisfying, reaching full integrity. This way the systems that you invest your time, energy, and resources in can reach their best performances.

exclusive,
customizable,
acoustic and
sustainable.

Of course, this subject reaches far beyond interior entertainment; it is the ongoing issue of how you feel when you walk into a space, what you see, what you admire, what you hear... Mikodam considers what increases an interior's quality, how it could reach its full potential, how you can reach complex compositions that come with ease pleasing the aesthetic appetite, how you can reach designs that are less-consuming yet inspiring, and how you can have more time for yourself in spaces you feel free in. Now, it is time to enjoy each moment, to reach a higher quality in living, to go beyond your limits.

Mikodam has brought a unique solution that addresses all these issues with its feature wall and ceiling panels. Mikodam designs are exclusive, customizable, acoustic and sustainable. What Mikodam offers deals with the issues of taste, quality and function. Mikodam solves and improves for you.

Though their designs are complex Mikodam feature panels are easily applied; the panels are mounted on a rail system and can be changed when desired. This way you can have brand new interiors when you wish. While this brings a whole new perspective on how we live in our houses, it also opens up a wide range of possibilities for the entertainment sector. Spaces can be transformed according to the desires of the customers and the requirements of the events. Mikodam offers such an option with the awareness that beyond aesthetics variety is now a need.

natural and industrial
new technologies
environmentally sensitive

Mikodam brings natural and industrial together, creating materials that benefit from new technologies while inspiring from what nature has to offer us. We believe that using materials such as wood, along with the new options we have, has a balancing effect, to our surroundings and to our souls. Mikodam chooses conscious materials regarding their environmental effects as well as their effects on humans, from manufacturing to end-user. We use world class brands that are environmentally sensitive. We care for all the lives we touch.

FEATURE WALLS & CEILINGS

BISA

4724" - 120 cm

In interior designs where the identities of consumer, manager, artist, architect and engineer collaborate, BISA not only performs a function, it also undertakes to narrate a legend of all times.

DETA

4724" - 120 cm

The dissolving geometry of DETA combined with the soft light that seeps through create a timeless design. DETA truly belongs in interiors of class. DETA is a customizable wall and ceiling panel offering flexible design options and acoustic solutions.

FILA

4724" - 120 cm

FILA provides a three-dimensional wall surface consisting of rectangular forms. Its distinctive assembly creates a unique movement and is the perfect line for out of the box visionaries.

KARA

4724" - 120 cm

Forming a platform open to many thoughts and impressions, KARA is a modern and unique wall cladding solution which will bring a brand new inspiration to interiors. With its concept that can easily be adapted to many projects and spaces, it is a wall panelling solution that you can combine as you wish.

KOSA

4724" - 120 cm

In spaces shaped by color, pattern and texture, KOSA offers flexible interior solutions by delivering the best possible atmosphere.

LEDA

4724" - 120 cm

LEDA's striking aesthetics challenge the norms creating interiors that stand out. The flexible pieces that construct LEDA allow a different pattern to be created in every design making sure its gentle curves are unique like waves of the ocean.

FEATURE WALLS & CEILINGS

NEKA

23.62" - 60 cm 23.62" - 60 cm

NEKA is a design for those who like to play with patterns. NEKA comes in two sizes. Each rotation of NEKA's pieces births a new pattern while its different combinations create unique and modern environments.

PIRA

4724" - 120 cm

The dynamic 3D design and different size options of PIRA offer flexible solutions while bringing an unparalleled depth and texture to interiors. PIRA is a modern and lively solution for interiors with style. PIRA is a customizable wall and ceiling panel offering flexible design options and acoustic solutions. It is an indoor architectural product with fast and safe assembly.

RONA

4724" - 120 cm

RONA is the pure image of dynamism. It creates an illusion of movement that livens up interiors tastefully. RONA's rhythmic movement is sure to energize its users motivating them towards reaching their goals.

SAPA

4724" - 120 cm

SAPA's dynamic design creates effective sound scattering improving interiors acoustically and visually. Create exquisite interiors with Mikodam to enhance all your experiences.

SONA

4724" - 120 cm

SONA creates timeless interiors with its linear design that flows with subtle movements. SONA, despite its gentle touch, makes sure all eyes are on it. SONA's horizontal and vertical application creates different rhythms, tells different stories. While it has a strong character on its own it combines beautifully with other panels.

TORA

4724" - 120 cm

With its definitive lines TORA offers a bold stance. The striking rhythm derived from triangular forms is a motivational source when creating interiors that reflect its users' strongest suits. TORA is a customizable wall and ceiling panel offering flexible design options and acoustic solutions. It is an indoor architectural product with fast and safe assembly. Mikodam 3D wall panels help create sustainable, sophisticated interiors with ease.

FEATURE WALLS & CEILINGS

VATA

23.62" - 60 cm

23.62" - 60 cm

47.24" - 120 cm

VATA carries a warm sense of freedom bringing inspiration to those in its presence. VATA is a customizable wall and ceiling panel offering flexible design options and acoustic solutions. Mikodam 3D wall panels help create sustainable, sophisticated interiors with ease.

VERO

23.62" - 60 cm

23.62" - 60 cm

47.24" - 120 cm

An exciting motivational source in its pursuit of dreams, VERO offers a luxurious solution which provides the opportunity of self-reflection and fulfillment, while being adaptable to exhibition stands.

ZETA

23.62" - 60 cm

23.62" - 60 cm

23.62" - 60 cm

23.62" - 60 cm

ZETA embraces dimensionality. It is an amazing design as a tool for free expression. ZETA's different orientations create patterns that carry out different feelings with the common element of supreme charm.

PARAMETRIC WALL PANELS

GETA and HAZA are Mikodam's parametric panel lines. Even though they come in standardized, ready-to-purchase sizes, they are also available for custom production. They are applicable to any interior skin since the parameters of the production can be adapted to your designs. GETA can also be used to cover surfaces other than walls or ceilings to create alluring furniture pieces. The same goes for HAZA, resulting in solid-wood sculpture-like furniture or building elements.

PARAMETRIC WALL PANELS

GETA

Creative GETA offers a modern and unique wall paneling solution that brings a brand new inspiration to interiors, presenting opportunities for those who love to experiment with new materials, colors and techniques. Its three-dimensional design adds a totally different texture and depth to living spaces.

11.8" - 30 cm

HAZA

HAZA is for those who believe in the magic of waves. The shapes and shadows it creates will mesmerize any viewer. A special patented technique is used in the manufacturing of HAZA, bringing this unique solid wood design into your interiors. The feeling of freedom and flexibility felt by each person is integrated with the attitude and approach of the space and the products it wears.

PARAMETRIC WALL PANELS

In our foundation lies a half-century legacy of experience and know-how in the fields of high-end contract furnishings, having completed many prestigious residential, commercial, entertainment and hospitality projects in various countries around the globe. While IKOOR is our contract project firm where we provide manufacturing solutions, Mikodam's focus is on design and creating products that will carry our solutions into the market, now offering the same quality for your interiors with our exclusive line of wall coverings and furniture.

ACOUSTICS

Acoustics is an important issue that determines the quality of the sounds that surround us. Unwanted and uncontrolled noises coming from many directions and sources can turn into polluted sounds full of reverberations and explosions. To improve the acoustics of a room or space, it is important to improve the acoustic performance of the walls and ceilings.

Mikodam Acoustic Walls

Mikodam offers robust high impact acoustic decorative wall panels suitable for a large range of spaces. In our search for quality, we bring a solution to the issue of acoustic clarity with our wall panels which are specially designed, tried and tested to provide both sound absorption and scattering.

Choosing from perforations, materials and surface textures as well as three dimensional options, you can reach acoustically and aesthetically pleasing environments, while the customizability options ensure that there is a unique solution for every need. Mikodam products help create spaces that are improved, spaces that are harmonious, spaces that are designed, spaces that are of the highest quality.

Plain surfaces reflect the sound causing sound pollution. Surfaces covered with Mikodam feature panels scatter the sound creating a balanced acoustic experience.

WALL & CEILING INSTALLATION

Mikodam feature panels can be used on walls and ceilings. For wall application they are mounted onto a rail system. They can be applied onto the ceiling in a similar manner or suspended.

Different Mikodam wall & ceiling lines can be used with one another as they use the same railing system. This also allows the walls to be changed whenever desired allowing the user to achieve brand new interiors instantly, whether it be to create dashing concepts for events or to remodel a house.

COLORS & MATERIALS

Mikodam 3D wall panels present clever solutions to create your own spaces. Various combinations can be achieved with different color and material alternatives such as natural wood veneer (oak, walnut, teak), lacquer, fabric.

Through rotations, material choices and using different lines together you can create different patterns and breath-taking interiors.

KONA

With its beauty, style and organic curves, the Kona Chair is sculpted to perfection. Meticulously engineered, the chair allows a better acoustic experience; its winged shaped collects the sounds that you face while leaving out the ones you turn your back to. Offering a selection of material and colour options, the chair can be made from oak, walnut, fabric or acrylic.

PEPE 41

PEPE

The Pepe cabinet is refined in appearance and ideal for contemporary rooms. Lovingly crafted, Mikodam's cabinets are built with the highest specification to ensure quality is never compromised. The cabinet collection comprises a mix of classic and contemporary looks with a variety of patterns, colours and materials to choose from. The cabinets are designed to be customisable offering a fit for any taste.

PEDI

With its modern lines and geometrical patterns, the Pedi table channels an aura of elegance. This beautifully striking dining table offers four unique patterns to choose from as well as lacquer options.

SELA

Uniquely crafted oak and walnut give this table a dramatic but traditional feel. Confident and bold, Sela makes an outstanding statement, with its effortless fusion of function and unique design.

YUKO

PEPE 21

ENES

The contrasting metal legs, and the wood and ceramic tabletop complement this aesthetically pleasing table quite exquisitely, creating a firm modern statement. The table's unique metal frame and legs allow for ample leg room whilst its ceramic and solid wood tabletop display the labour and craftsmanship involved.

SUSTAINABILITY CONSCIOUSNESS & DURABILITY

Mikodam brings natural and industrial together, creating materials that benefit from new technologies while inspiring from what nature has to offer us. We believe that using materials such as wood, along with the new options we have, has a balancing effect, to our surroundings and to our souls.

Mikodam chooses conscious materials regarding their environmental effects as well as their effects on humans, from manufacturing to end-user. We use world class brands that are environmentally sensitive. We care for all the lives we touch. Health is one of the most important factors in design, and it is one of the important steps in our search for quality.

Durability

With true quality comes durability. Mikodam products will serve you for many years to come. Mikodam offers designs with the awareness that beyond aesthetics variety is now a need. Just like we do not eat the same food every day or wear the same clothes over and over, we seek a change in space as well. Mikodam offers a convenient way to make this possible. Though their designs are complex the application of the panels are quite easy; this way you can have brand new interiors when you wish. While this brings a whole new perspective on how we live in our houses, it also opens up a wide range of possibilities for the entertainment sector.

Certifications of Mikodam Products & Raw Materials

For our products we use high quality raw materials and make sure our suppliers can offer the below given certificates and regulations.

FSC

Mikodam works with FSC (Forest Stewardship Council) certified suppliers. FSC regulates legal and environmental use of forest resources.

EPA

Mikodam seeks materials that are approved by the United States Environmental Protection Agency (EPA) or accredited standards as such approved by EU. EPA regulations inspect the effects of production and products over human health and environment.

CARB2

The MDF Mikodam uses are CARB2 (California Air Resources Board Phase 2) certified which is a certification of low formaldehyde emission.

CE

CE marking shows that all products are manufactured in accordance with European Union standards and that the products meet safety, health and environmental protection requirements.

E1

Using E1 certified products is an important matter to Mikodam. E1 certify that the chemicals used in the panels are harmless to human health, in accordance with European standards.

ISO Certificates

ISO certificates present points of quality that are internationally recognized. Both Mikodam products and their materials are ISO certified.

ISO 9001 Quality Management System Certificate

ISO 14001 Environmental Management System Certificate

ISO - OHSAS 18001 Work Health and Safety Management System Certificate

EPD

Environmental Product Declaration (EPD) is a globally recognized certificate that confirms that Mikodam products are sustainable, recyclable, energy-efficient; have low emission and VOC values, and efficient waste management. Our raw plywood suppliers provide materials that vary from sustainable sources, and conform to all regulations such as EUTR (European Union Timber Regulation). They are either PEFC or FSC certified.

FR

Mikodam offers the option of using FR certified materials which are fire resistant and fire retardant at European standards. The fire resistant Mikodam products are certified by QCS according to ASTM-84 standards.

Coating & Paint

Mikodam uses water-based coatings and paints that are non-carcinogenic, environment and human-health friendly. These products are ISO 9001, ISO 45001 certified, and have Silver Medal for Sustainability from EcoVadis.

Protective Oil

The oils Mikodam uses follow the EN 13501-1: EN ISO 11925-2 and EN ISO 9239-1 standards and are Bfl-s 1 certified. They are composed of non-toxic elements; they do not contain solvents, water or Volatile Organic Compounds (VOC 0%).

Fabric

The fabric used in Mikodam products is Camira, an environmentally conscious brand producing fabrics of high quality. The line Mikodam uses is 100% virgin wool with non-metallic dye-stuffs. It is 'Indoor Advantage Gold' certified, and rapidly renewable and compostable.
