TO WHOM IT MAY CONCERN

RE: REACH

Dear Sirs,

we would like to confirm you herewith that our suppliers have provided to pre-register all the products that fall under CE 1907/2006 regulation.

In our opinion it's also needful to know that this regulation does not require any communication of those pre-registration codes also because there is no possibility to check them.

Registration codes will be available only after the final registration.

Furthermore we confirm, that our suppliers are not using substances included in the SVHC list issued by ECHA.

Best Regards,

IPIR – F.LLI ZANGHERI & C. SRL
